DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 9, and 11-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Bennett et al (5,371,310) in consideration with incorporated Rubin et al (4,954,325).

At the onset, a review of the decision of the Board of Appeal dated on 8/29/2002 is strongly suggested.

Applicants are also reminded that on column 26, example 11, Bennett discloses that MCM-22 disclosed by Rubin is incorporated in the patent to Bennett.

Bennett discloses using MCM-22 and MCM-49 as a catalyst for transalkylating diisopropylbenzene with benzene under substantially the same condition of temperature, pressure, SV and ratio of reactants as the applicants' claimed process (see example 12).

Table IV of Rubin is also table A, B, C, and D as called for in claims 1, and 11-14.

According to the Decision of the Board of Appeal, namely pages 3-7, similarly, the applicants' "binder-free" catalyst is not distinguishable from the Bennett catalyst.
